Meet Cary!

Resolution for 2018:

I am FINALLY
going to
start using
Apple Pay!!!

Apple Pay in 2018? You've waited long enough!

You've been putting it off, but now is the time to put Apple Pay to work. It's the smoothest, most reliable way to make transactions in stores, on your phone, or on your computer. Since Apple Pay uses your fingerprint for approval, it's as secure as it gets.

Loading your RMLEFCU VISA card is a cinch. Simply open the Wallet app on your iPhone, press the "+" icon, and take a picture of your card when prompted. The Wallet app is where your card will reside when you want to use it – always safe, always super-secure. And nobody will EVER see your card information, not even the vendor.

Android Pay and Samsung Pay work pretty much the same, with their own apps on which you can load and access your RMLEFCU VISA card.

It's easy, and it's smart, and it should be your resolution for 2018!

Get your kid on a smart track... with a RMLEFCU checking account of their own.

Your teenager is ready to take on a little "grown-up" responsibility—and a RMLEFCU checking account is a great place to start. They watch over their own finances, while you maintain a helpful eye.

Along with the smarts that come with managing their own money, they also get a leg-up on future financial standing as a young member of our elite credit union group.

As your teen leaps into the world of mobile banking and Apple Pay, they may even teach you a thing or two! It all starts with a RMLEFCU membership with checking. It's worked for you, and it will work for them, too!
